Strandherd Drive Widening (Maravista Drive to Jockvale Road)

The City of Ottawa has initiated the detailed design to construct a widened four lane cross section of Strandherd Drive from Maravista Drive to Jockvale Road in Barrhaven. The project limits are illustrated on the key map below.

You are invited to attend the following Public Advisory Committee (PAC):

There will be on-going public consultation activities during the course of the design. This first PAC will provide an overview of the design progress to date including an overview of existing conditions, reconfirming the project need and justification, and presenting relevant design elements. Your participation in the meeting is an important component of the design process where you can discuss the project with the study team and provide feedback.
